Quezon City, Philippines

PROFESSIONAL SUMMARY

BS Computer Science graduate specializing in Data Science with hands-on experience building full-stack web applications using Laravel, Vue.js, Next.js, and PostgreSQL. Experienced in developing production features, optimizing application performance, and collaborating with cross-functional teams.

EDUCATION

Lyceum of the Philippines University - Batangas

2021 - 2026

Bachelor of Science in Computer Science Specialized in Data Science

- **Organizations:** LPU-B Microsoft Student Community (2021 - Present)
- **Relevant Coursework:** DSA, OOP, Software Engineering, Data Science, AI

EXPERIENCE

Junior Web Developer Intern

March 2026 - August 2026

Circuit Solutions Inc.

- Built **15+** responsive admin and guest-facing pages for a real estate platform using Vue.js, Vuetify, Pinia, and Vue Router, integrating Laravel REST APIs via Axios.
- Cut repeated image load times from **300-500ms** to under **2ms** by **caching S3-signed URLs** and listing data in Pinia.
- Delivered end-to-end CRUD across **10+ modules** including properties, brokers, calendar events, and activity logs.
- Automated **One Pager**, **Two Pager**, and PIS document generation through dynamic **HTML-to-PDF** backend integration.
- Implemented **reverse geocoding** with the **Nominatim API** to convert Google Maps share links into coordinates, giving agents accurate property pinpointing.

PROJECTS

WikaWonders Kids | Next.js, TypeScript, Supabase (PostgreSQL), TailwindCSS, Vercel, Python

- Built and deployed a gamified Filipino language learning platform with role-based dashboards for administrators, teachers, parents, and students.
- Implemented authentication and access control using Supabase Auth: **role-based permissions**, **Google OAuth**, **OTP verification**, **TOTP two-factor**, and **session management**.
- Developed a Python **K-Means clustering** pipeline that groups learners into proficiency levels, exposed to teacher dashboards through dedicated API endpoints.
- Integrated **36+ Godot WebAssembly games** into the app with reusable routing and embedding workflows.
- Built end-to-end classroom management features and RESTful APIs backed by PostgreSQL, handling **764** assignments across **93** enrollments.

PERSONAL PORTFOLIO | Next.js, TypeScript, TailwindCSS, Vercel | <https://zymer-fernando.vercel.app/>

TECHNICAL SKILLS

Languages: HTML5, CSS, JavaScript, TypeScript, Python, C++, PHP, Java, SQL

Developer Tools: Postman, Github, Supabase, Figma, Vercel, VSCode, Cursor, Claude Code, PostgreSQL, npm, Bitbucket, AWS S3, AWS EC2, Docker, Wordpress, Shopify, n8n

Frameworks: Next.js, ReactJS, Node.js, Vue.js, Laravel

Libraries: numpy, pandas, scikit-learn, TailwindCSS, shadcn/ui, Express, FastAPI

Other: Agile, REST APIs, Jira, Trello
